# John Steele

Web Developer | PHP, Laravel, WordPress | IT Systems  
Management | CNC Manufacturing Professional  
Huntington, Arkansas, United States

## Summary

I'm a hands-on problem solver with over 20 years of experience in IT, web development, and CNC manufacturing. I've built custom Laravel and WordPress applications, managed Windows Server/Exchange environments, and developed database-driven solutions for small businesses and healthcare organizations.

Alongside my IT career, I've also worked extensively in CNC programming and machining — giving me a unique blend of technical expertise and real-world production experience. My goal now is to transition back full-time into IT and web development, where I can apply both my programming background and my practical business problem-solving skills.

---

## Experience

### Steele Technologies

Owner / Lead Programmer

1998 - Present (27 years)

Huntington, Arkansas, United States

Built and maintained custom WordPress sites, including hand-coded themes and plugins.

Delivered PHP and Laravel applications for clients needing database-driven functionality.

Supported small businesses with long-term maintenance and technical consulting.

### Anchor Harvey (formerly D&N Machining)

CNC Machinist

July 2021 - Present (4 years 3 months)

Greenwood, Arkansas, United States

Produced precision firearm components for Walther PPK during multi-year contract; later transitioned to pipeline, aerospace, and agricultural parts.

Operated CNC lathes and mills while interpreting blueprints and inspection sheets for accuracy.  
Assisted with troubleshooting machining issues and improving setup efficiency.

### Armbruster Stageway
